

Present with impact

Present with impact

Standing in front of people and being yourself can be a challenge, but it is exactly what you need to do if you want to capture and persuade your audience. Develop your skills in effectively presenting to an audience, whether they are your usual colleagues, or your prospective clients.

🌐 Dutch

You're often giving presentations in- and outside your company, and you're looking to improve your skills in presenting with impact.

- How can you deliver a powerful message that stays with your audience?
- How can you manage your nerves and present in a natural way?
- And how will you influence your audience while being authentic and persuasive?

Presenting with impact comes down to being authentic, and utilizing your presenting skills to positively influence your audience.

In this training you will build your confidence, and learn fundamental tools that will help you succeed in delivering effective presentations.

You will learn how to capture your audience naturally, and inspire them to take action.

You will learn to utilize your body language to make your message even more powerful.

And you will learn to interact with your audience during your presentation and handle unexpected reactions.

This training will help bring out the impactful presenter you already are.

For who?

Anyone who presents or speaks in public on a regular basis (in company, or for an open audience)

After completing this training:

- You will gain more confidence in presenting, and build your assertiveness.
- You will be able to prepare your presentation in a way that tells a story and captures your audience.
- You will know how to utilize your (non-) verbal communication skills to influence your audience.
- You will be more natural in interacting with your audience, and you will be able to handle unexpected questions.

Program

Day 1: Powerful presenting

- Build your confidence through neuroscience-based exercises
